Company Profile

Basic Information

Business Type **Manufacturer**

Ownership & Capital :

Ownership Type **Partnership**

Year of Establishment **1994**

Trade & Market

Annual Turnover **Rs. : 3-4 Crore Approx.**

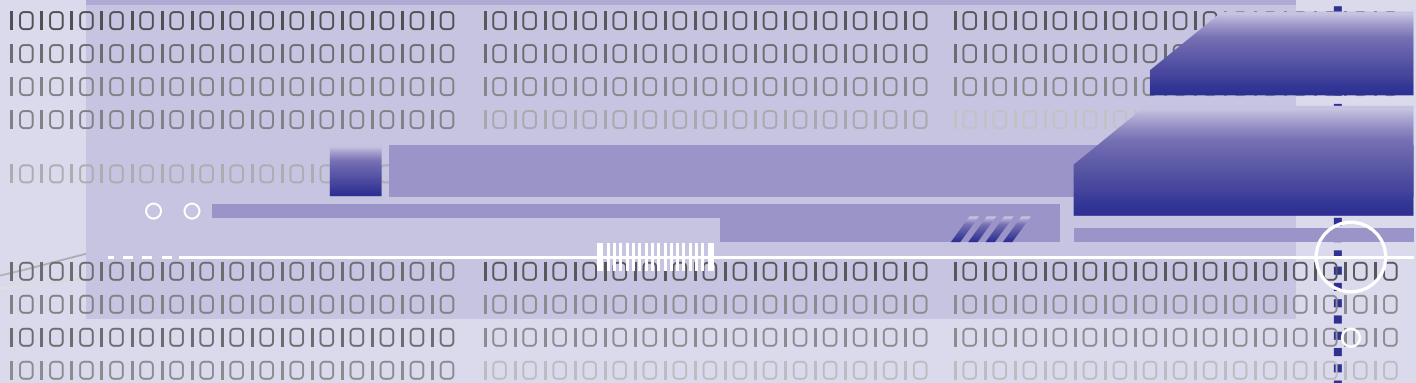

Team & Staff

Total number of Employees **11 to 25 People**

Company USP :

- Primary Competitive Advantage
1. Experienced R & D Department
 2. Provide Customized Solutions
 3. Good Financial Position

Quality Testing **Yes**

Our Organization

Our organization is widely known for its technological creativity and high quality standards. Moreover, we have a team of skilled researchers who conduct extensive market surveys in order to get the information related to current trends of the market.

Thereafter, these data are incorporated in the manufacturing process which further helps in improvising and upgrading the existing product range.

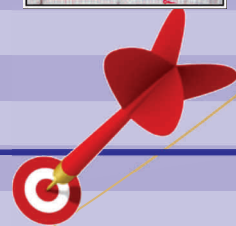

Furthermore, in order to facilitate our clients, we also offer customization facility in order to meet the exact requirements of the clients based in **ALL OVER INDIA**.

We are headed by our mentor, **Mr. RAJESH ZALAVDIYA** Owing to his rich industry experience & strong business acumen, we have been able to garner an extensive clientele from across the country.

Aim/Target

Achieve highest precision,
uncompromising productivity &
customer orientation with convergence of the following

Advantages

- High geometric accuracy.
- Exquisite printing works, True colors manifestation & High colorful reappearance.
- Long service life.
- Consistent printing effect.
- High hardness, good wearing resistance.

Specification

- Maximum size : 1200mm in circumference, 2000mm in length
- Minimum size : 350mm in circumference, 300mm in length
- Engraving depth : 100 μ m
- Surface finish attains Ra0.1
- Diameter deviation limited to \pm 0.01mm
- Concentricity error is limited to 0.03mm
- Chrome coating hardness ranges between HV800~1000

Production Processing

- Digital Documents (or original printing sample)
- Pre-press Facture (at the same time the roller Mechanical Processing)
- Steel tube as roller base surface
- Plating a nickel metal layer above the roller surface
- Plating a copper metal layer above the roller surface
- Copper cutting above the roller surface
- Polishing Surface
- Cotting Surface
- Engraving (Exposing)
- Plating chromium layer as a durable anticorrosive protective layer
- Chrome Plating
- Quality Checking
- Production Complete and Delivery

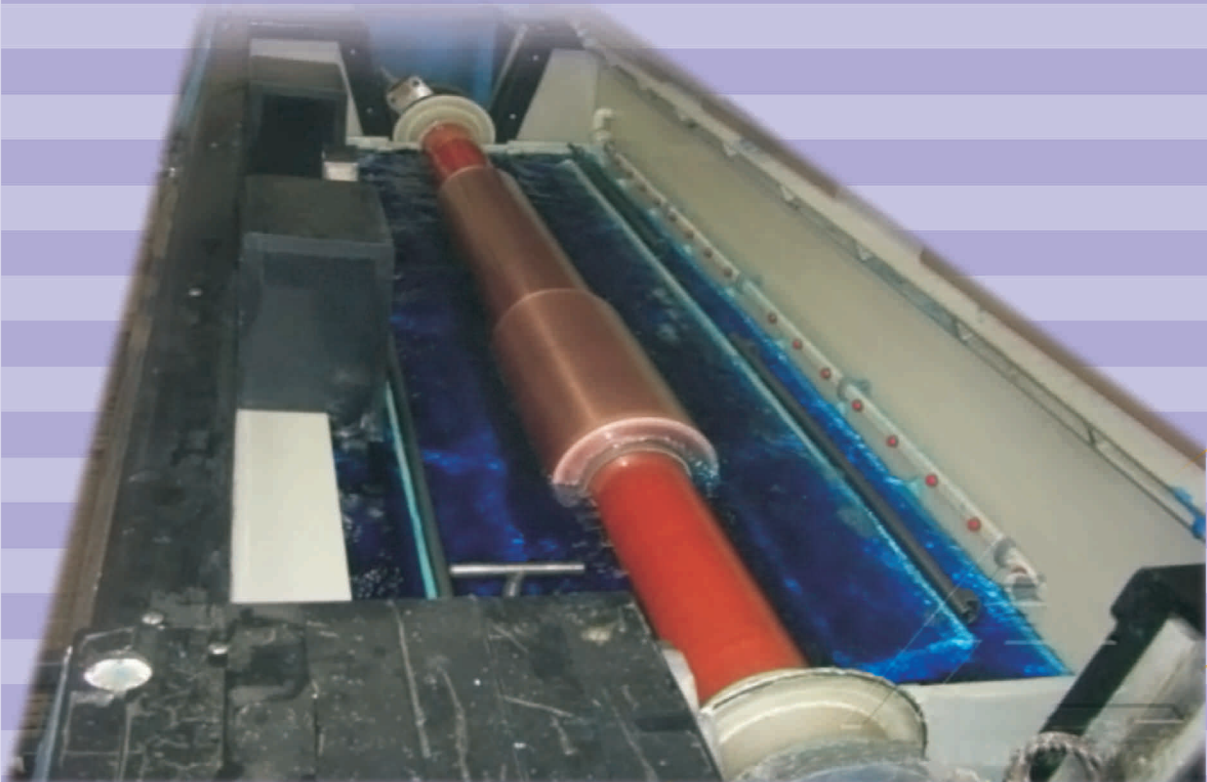

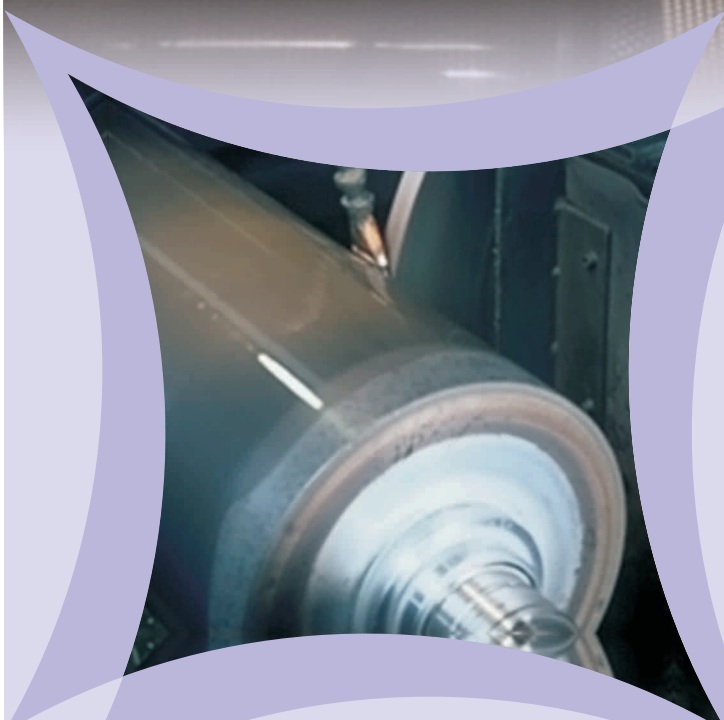

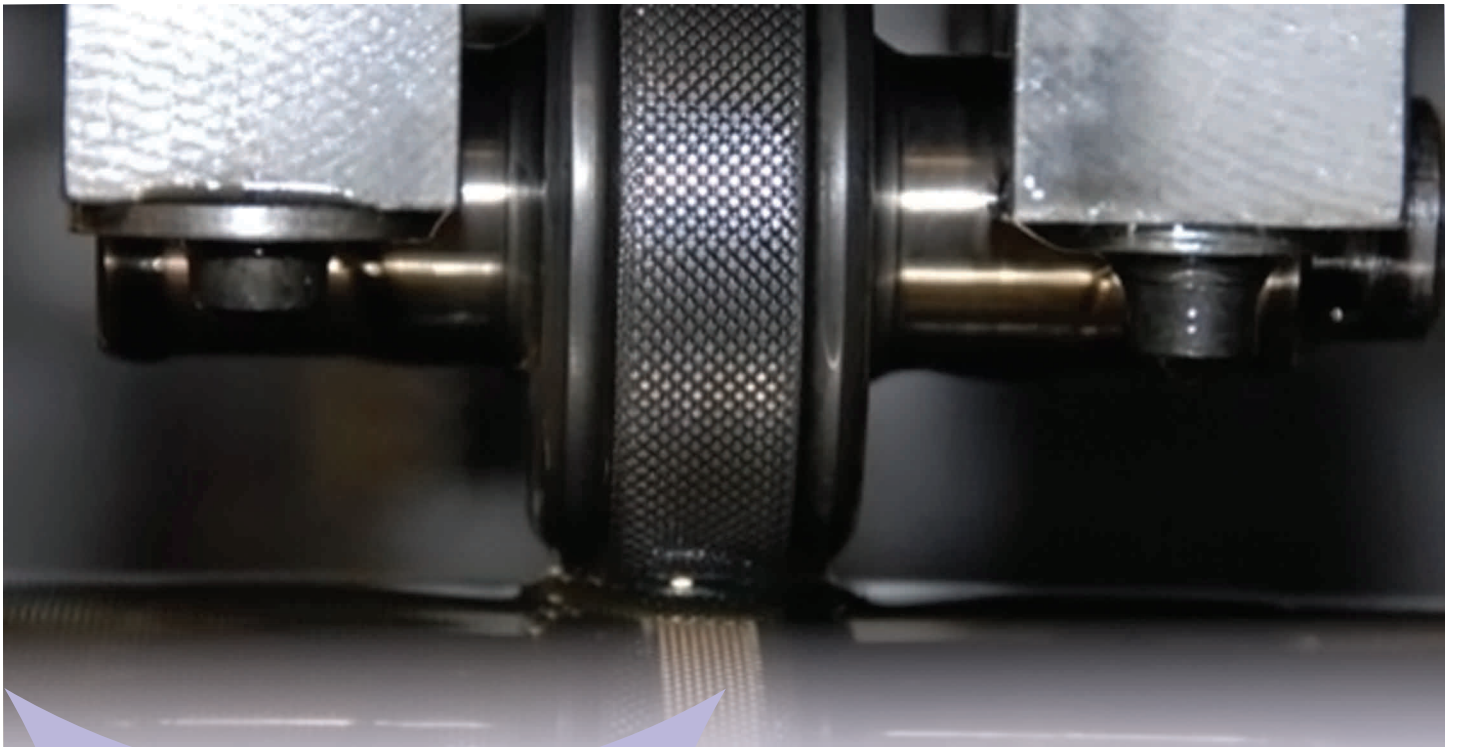

Graphics Studio

The pre-processing of designs needs this extension. The company is geared towards it. The designs, the creativity are given the master precision touch. The designs in any form of line art work, bromides & transparencies are scanned, colour - corrected on latest graphic software under high-end Pre-press shop from Best colour. The latest form of design submitted is the digital data. To ensure precision, the Digital Proof is issued before engraving.

These latest innovative methods focus on accuracy & the pre-processing ensures the maintenance of original creativity. A fully computerized graphics department which provides in-house colour separation using high-end system and does proofing using the latest technology of inkjet proofing system.

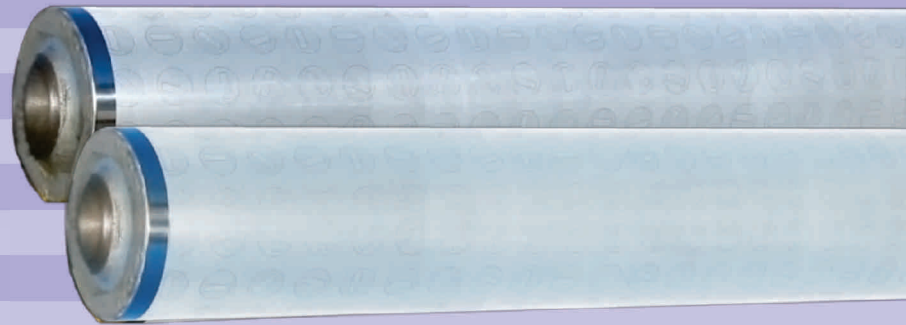

Qualitative Engraving

We are producing good qualitative engraved cylinders because.....

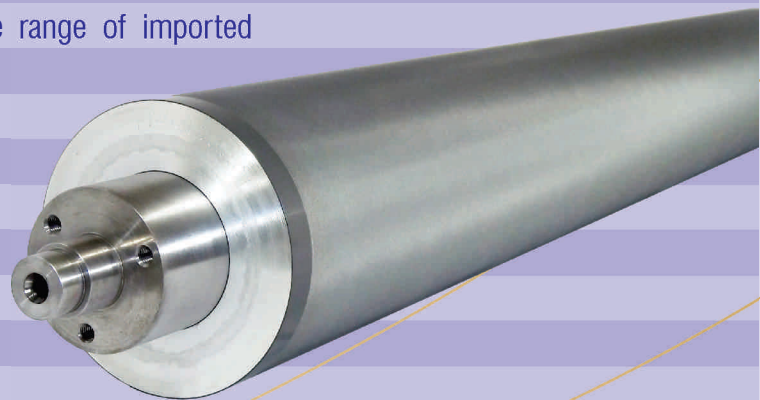

We are equipped with all latest machineries,
measuring equipments and ultra modern laboratory,
Quality control department and
United strength of experienced and qualified technical team.

Jointless Rollers

We are more confident about our jointless mechanical rollers because.....

We have proper machinery to make qualitative
jointless mechanical and anilox roller to fulfill all your
need for jointless roller with wide range of imported
screens & technical staff.

Product Portfolio

We are one of the trusted manufacturers and suppliers of a quality range of Rotogravure Printing Cylinders. Largely appreciated for efficient performance and dimensional accuracy, these are widely demanded in industries like.....

Flexible Packaging

Woven sack Bag

Pharmaceutical

Paper Printing Rollers

Shrink & sleeve packaging

Decorative Laminates

Leather & Rexin Printing Rollers

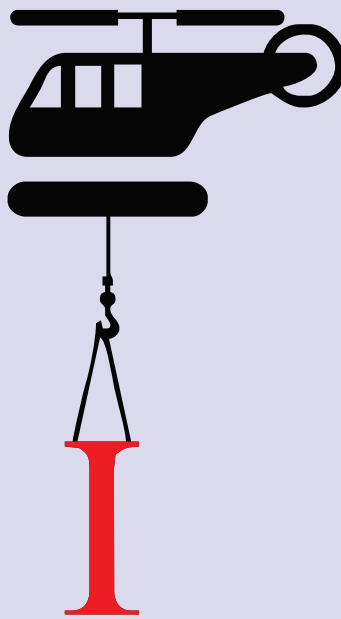

Smock Sarees (Surat Textile)

Anilox Rollers & Jointless Mechanical Rollers

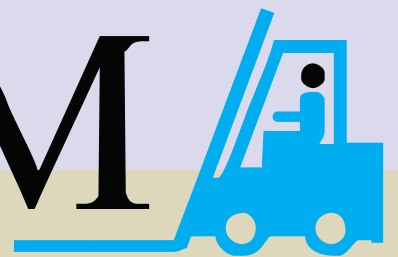

Coating Rollers

AM

THERE IS NO 'I' IN TEAM

Our Team

- Quick Response.
- Professional technology and Skills.
- Experienced elites team with wonderful abilities.
- Efficient process & people management, first-class service, sincere attitude.

Some of the features include :

- Reliable performance.
- High efficiency.
- Corrosion resistant finish.
- Durable finish standards.

We have constituted a highly efficient team comprising skilled & experienced persons to contemplate various operations.

These professionals possess rich skills and knowledge in the diverse fields.

Our team members works in close co-ordination with each other & very hard to complete the client's orders within the stipulated time.

These professionals are deployed at various units of our organization such as production, quality assurance, supply, R & D, warehouse and supply.
